**Subject:** question about scheduling

Hi all,

I'm not sure who the best person is to ask about this, so I am including all of you--

Could you provide some more specifics on when I will next be needed for this process? I wasn't sure if it was a month from our last conversation, or a month after your evidence review with JC.

I have some academic commitments I'll need to schedule well in advance this semester, so if you could provide a date before which I won't be needed, or a window in which you think I will be needed, that would be much appreciated.

Many thanks,  
Lilia
